WELCOME TO BARTSCHER – YOUR PARTNER FOR PROFESSIONAL KITCHEN EQUIPMENT

We are thrilled to introduce our new catalogue! At Bartscher, we are dedicated to serving professional caterers. Our mission is to provide a comprehensive range of high-quality, innovative products designed to tackle any kitchen challenge.

We understand the rigorous demands and expectations of modern catering establishments. That's why we emphasize efficient, hygienic, and cost-effective solutions that meet the high standards you deserve.

Whether you operate a bustling snack bar, an upscale restaurant, or a school catering service, our diverse offerings cater to the unique needs of your industry.

Visit our website at www.bartscher.com to explore detailed product information, helpful operating instructions, and extensive visual resources. With our well-stocked inventory we are able to guarantee swift delivery, ensuring to meet your needs promptly.

"Together, we are shaping the future of gastronomy - driven by passion, expertise, and an unwavering pursuit of excellence. Thank you for being an integral part of our Bartscher family. Let's achieve success together!"

Sincerely,

Andreas Heumüller
General Manager

Wolfgang Mayer
Export Manager

EXHIBITION AND TRAINING CENTRES

Visit our exhibitions and experience the Bartscher appliance first hand. We will be happy to make appointments by phone.

EXHIBITION CALENDAR 2025

DISCOVER THE FUTURE OF OUR INDUSTRY

Visit us at the most important trade fairs in 2025 and learn about our latest innovations first hand.

Be inspired by exciting presentations and make valuable contacts.

We are happy to welcome you.

Don't miss out - take your knowledge to the next level!

OUR PROJECT MANAGEMENT

PRECISE PLANNING | PROFESSIONAL SUPPORT

Your personalized kitchen solutions

Are you planning to design a new commercial kitchen or looking to optimize your current cooking space to better suit your needs?

We're here to help you turn your ideas into reality. Our experienced project management team is ready to support you through every phase of the process, including needs analysis, functional determination, conceptual design, project planning, and installation preparation. Additionally, we are your dependable partner for developing service specifications. Simply reach out to us at: projekt@bartscher.com

Everything from a single source: customer-centric and professional

As a full-service provider, we offer a comprehensive range of solutions for professional catering kitchens. Our support extends to trade partners, architects, and planning professionals. Together, we will identify the optimal solution for your project.

Take advantage of our extensive services

- Needs analysis
- Functional analysis
- Concept development
- Project planning
- Quotation processing
- Installation planning
- Assistance with performance specifications

NEW: 3D DATA IN IFC FORMAT

To streamline your planning process, we now offer the latest 3D data in IFC format, alongside traditional 2D data (DXF). This data can be effortlessly imported into popular CAD programs, enabling you to visualize your kitchen design in a realistic manner. Access our extensive database at:

www.bartscher.com/en/Projektmanagement

Support every step of the way

Our knowledgeable project management team is also available on-site to provide assistance throughout every phase of your project. Whether you have questions or require tailored advice, simply send an email to projekt@bartscher.com, and we will be ready to assist you.

Challenge us – we're excited to bring your projects to life!

THE BARTSCHER CLOUD

DISCOVER THE COMPLETE DIGITAL SERVICE

Experience how the Bartscher Cloud is revolutionizing the digitalization of your fully automatic coffee machines. Upon purchasing a unit, you will gain exclusive access to our web-based portal, which provides you with complete control over your machines.

Conveniently access all functionalities via your smartphone, tablet, or computer. The management of units and users is intuitive through the admin interface, ensuring you always maintain a comprehensive overview.

And the best part? More product groups will be added soon! Utilize the Bartscher Cloud to elevate your business to new heights - efficiently, flexibly, and innovatively!

PROVEN QUALITY – SINCE 1876

Our company history, which has been characterised by experience and expertise since 1876, is reflected in our steady growth into one of Europe's leading kitchen suppliers..

The assurance of a strong, renowned brand

Since 149 years, kitchen professionals have placed their trust in Bartscher. So, you can depend on a brand with solid reputation for reliability in the catering industry.

Commitment to quality and service

At Bartscher, quality is more than just a promise; it's a core principle. Our unwavering pursuit of excellence extends to both product development and customer service, ensuring you benefit from exceptional durability and reliability.

Comprehensive product range

Diversity is one of our greatest strengths. Whether you need innovative fully automatic coffee machines, powerful high-speed ovens, or our state-of-the-art MDI control unit, we have the perfect solution to meet your needs.

Excellent price-performance ratio

We understand the importance of economic efficiency. That's why we provide top-notch quality at competitive prices. With Bartscher, you can expect outstanding products without breaking the bank.

WE VALUE YOUR OPINION

HELP US TO IMPROVE!

At Bartscher, we take pride in delivering innovative, high-quality products for the catering industry. To ensure we continue to provide you with the best service and optimal solutions, we highly appreciate your valuable feedback!

Please take a moment to share your experiences and insights with us. Your input is vital for the ongoing development of our products and services.

Help us shape the future!

By taking part, you enable us to offer you even better products in the future. Your vote will influence our product design and the way we respond to our customers' needs.

It's as easy as this:

1. Scan the QR code or visit our link.
2. Fill out the short questionnaire.
3. Benefit from exclusive offers and information!

THERMAL SERIES

Warmly recommended: Our thermal appliances.
In this section you will find everything you need
for the perfect preparation of your food.

Series 600

600 Series - The perfection of compactness.

Immerse yourself in the world of efficiency with our "600 series". With an installation depth of 600 mm and made from high-quality CNS 18/10 material, these appliances not only save space, but also offer durability and hygiene. The appliances can perfectly combined with each other and enable customised kitchen design. Ideal for snack bars, snack shops or food trucks that rely on a compact design.

The devices in the 600 series are connected using innovative clamping bars. These specially developed bars ensure a secure and stable connection between the individual appliances. The simple plug-in system makes it easy to combine the appliances with each other, allowing flexible arrangement and customisation to suit the individual needs of your kitchen.

With the 600 series and the connection technology using clamping bars, we not only offer compact and powerful cooking appliances, but also the flexibility to design your kitchen according to your individual requirements. Immerse yourself in a world of efficiency and design freedom with our 600 series.

Please ask us for individual advice on the series devices.

► Devices
height without chimney 290 mm
height with chimney 425 mm

► 3,5 kW burner
► 6,0 kW burner

► Device linking via wedge crosspiece

► Counter attachment hood for series 600 available on request

Series 650

Series 650 - Versatility redefined

The appliances in the 650 range of cooking appliances are not only characterised by their overall depth of 650 mm and the robust CNS 18/10 material, but also offer outstanding flexibility when connecting the individual appliances using special clamping bars. This connection technology enables the various modules to be perfectly integrated, making it easier to customise them to the needs of each kitchen.

The large deep fryer included in this range is particularly noteworthy. With its generous capacity, it is ideal for snack bars and snack shops that require efficient preparation of fried food. The powerful griddle plate is another highlight of this series, which is perfectly tailored to the needs of catering businesses. Its high performance and durability make it the ideal choice for professional kitchens where functionality and robustness play a central role.

Another advantage is that the 650 series cooking appliances are always available from stock. This availability enables customers to quickly expand or replace their kitchen equipment without having to put up with long delivery times. This aspect emphasises the practicality and reliability of the 650 series, which not only meets the highest quality standards, but also ensures efficient and smooth operations in the catering industry.

Please ask us for individual advice on the series devices.

▶ Devices
height without chimney 295 mm
height with chimney 485 mm

▶ Electric deep fat fryer with swivelling heating element

▶ Device linking via wedge crosspiece

▶ Counter attachment hood for series 650 available on request

Series 700

Series 700 - The standard for professional kitchens

In the world of catering, performance often also means depth. Our "Series 700" with a construction depth of 700 mm and the high-quality CNS 18/10 material sets this standard and offers professional solutions for demanding kitchens. The innovative modular design enables flexible customisation, while the material meets the highest hygiene standards.

An outstanding feature of the 700 series is the dirt-tight interlocking of the appliances. This innovative technology ensures a hygienic connection between the appliances, preventing the ingress of dirt and bacteria. This function helps to optimise cleaning processes and ensure compliance with the highest hygiene standards in professional kitchens.

In addition, we continuously invest in product development for the 700 series, with our dedicated research and development department constantly working on new innovations to make the series even more powerful and versatile. This means that new products are regularly added to meet the ever-changing demands of the catering world. This ongoing product development keeps the 700 Series at the cutting edge of technology and offers kitchen professionals the most modern solutions for their requirements.

Please ask us for individual advice on the series devices.

▶ Optimum performance by dual circuit burner

▶ Front panel with large operating knobs

▶ Easy cleaning: burner recess with detachable drip collecting tray

▶ Hygienic device connection

Series 900

Series 900 - Exclusivity in every dimension

The "900 series" redefines exclusivity in every respect. With an impressive installation depth of 900 mm and the high-quality CNS 18/10 material, these appliances not only offer generous space, but also outstanding performance and hygiene. The series is the ideal choice for large catering operations, classic communal catering such as canteens and hotel kitchens that set the highest standards in terms of efficiency and hygiene and can withstand large product capacities.

A particular highlight of the 900 series is the advanced interlocking technology, which ensures a secure and dirt-tight connection between the appliances. This innovative function not only enables efficient use of space, but also ensures a hygienic environment in the kitchen. The appliances are designed to connect seamlessly, minimising the ingress of dirt and bacteria between the appliances. This dirt-tight connection makes cleaning easier and helps to maintain the highest standards of hygiene.

The combination of exclusivity, performance and hygiene makes the 900 series the ideal choice for demanding catering environments where quality and efficiency are crucial.

Please ask us for individual advice on the series devices.

► Optimum performance by dual circuit burner

► Easy cleaning:
Hobs with removable collection tray

► Simple operation: very large toggles
with a good grip and legible labels

► Hygienic device connection

COOKING TECHNOLOGY

Cooking to perfection? Not such a simple thing to do. Or maybe it is: Because with Bartscher cooking technology, the certainty of success is already incorporated as standard regardless of whether it's a combi steamer, a hot air oven or a sous vide cooker.

Gas range MFGO 7040

The gas oven series MFG – starter models for the professional field in a solid design made of stainless steel. Due to the intuitive operation with a pilot flame, they are ideally suited for everyday use in the kitchen.

Convection ovens – MDI knob

Bartscher MDI Control System

MDI stands for "manual digital interface". It combines extremely intuitive knob controls with digital intelligence.

Precise temperature settings and a to-the-second timer enable an excellent, reproducible cooking process.

Once the cooking process is done, an audible signal alerts you and the most recently set time can be seen on the display.

Convection oven AT90-MDI

Series Silversteam2 M

Combi steamer Silversteam2 5230M

CNS
18/10

°C
280

The ideal partner for every kitchen: A Bartscher Silversteam2 combi-steamer. For convection cooking, steaming, combi-steaming and low-temperature cooking, the manual controls enable the easy, demand-based regulation of all cooking processes – with or without a core temperature sensor as desired.

- Material cooking chamber: CNS 18/10
- Functions:
 - Combi-steaming
 - Low temperature cooking
 - Circulating air
 - Steam
 - Steam production by means of direct injection
 - Reversing motor direction (fan wheels)
- Number of cooking programs: 1
- Number of cooking phases: 1
- Temperature range: 50 °C to 280 °C
- Fan speed: 2 levels
- Core temperature sensor connection: Side
- Water connection: 3/4"
- Properties:
 - Rounded cooking chamber
 - Bearing rails can be detached
 - Double-winged door pane
 - LED lighting in door
 - 1 grid GN
 - 1 tray GN
- Including:

► Easy knob control

► Double door glazing, inner door can be opened easily for cleaning

► Vapour extractor is easy to regulate

► Removable support rails

RRP* 55.- €

Perforated tray 2/3-AL

- Material: Aluminium
- Gastronorm: 2/3 GN
- Temperature resistant to: 260 °C
- Size: W 354 x D 325 x H 10 mm
- Weight: 0.37 kg
- GTIN: 4015613734729

100417

RRP* 19.- €

Perforated tray 2/3-SI

- Material: Aluminium
- Gastronorm: 2/3 GN
- Silicone coating: Yes
- Temperature resistant to: 260 °C
- Size: W 355 x D 325 x H 10 mm
- Weight: 0.41 kg
- GTIN: 4015613734736

100425

RRP* 29.- €

Baking tray 1/1-AL

- Material: Aluminium
- Gastronorm: 1/1 GN
- Temperature resistant to: 260 °C
- Size: W 530 x D 325 x H 10 mm
- Weight: 0.69 kg
- GTIN: 4015613734743

100426

RRP* 25.- €

Perforated tray 1/1-AL

- Material: Aluminium
- Gastronorm: 1/1 GN
- Temperature resistant to: 260 °C
- Size: W 530 x D 325 x H 10 mm
- Weight: 0.49 kg
- GTIN: 4015613734750

100427

RRP* 32.- €

Perforated tray 1/1-SI

- Material: Aluminium
- Gastronorm: 1/1 GN
- Silicone coating: Yes
- Temperature resistant to: 260 °C
- Size: W 530 x D 325 x H 10 mm
- Weight: 0.55 kg
- GTIN: 4015613734767

100428

RRP* 36.- €

Cooking basket 110

- Material: Stainless steel
- Gastronorm: 1/1 GN
- Size basket: W 490 x D 275 x H 50 mm
- Content: 7 litre(s)
- Size: W 536 x D 326 x H 61 mm
- Weight: 1.1 kg
- GTIN: 4015613788111

900300

RRP* 52.- €

Grill plate

- Material: Cast aluminium
- Gastronorm: 1/1 GN
- Roasting surface design: Diamond patterned
- With juice groove: Yes
- Size: W 530 x D 325 x H 15 mm
- Weight: 2.8 kg
- GTIN: 4015613660783

106576

RRP* 159.- €

Cooking parchment 1/1 GN

- Material: Paper
- Format per sheet: 1/1 GN, W 530 x D 325 mm
- Heat resistant to: 220 °C
- Order quantity unit: 1 box (500 sheets)
- Size: W 530 x D 325 x H 1 mm
- Weight: 3.55 kg
- GTIN: 4015613711423

150687

RRP* 49.- €

Baking spray 500ml

- Designed for: Greasing forms, baking trays, pans and waffle irons
- Material: 100 % vegetable oils
- Content / can: 500 ml
- Size: W 65 x D 65 x H 240 mm
- Weight: 0.37 kg
- Order quantity unit: 1 box of 6 cans
- GTIN: 4015613498515
- Minimum order quantity: 2 boxes

173060

RRP* 47.50 €

Deck ovens CL

Baked goods from a traditional bakestone made of fireclay with separately adjustable upper and lower heat. This deck oven has an impressively low temperature loss even with steaming. External steam generation and the firebrick ensure an almost constant temperature in the baking chamber.

• Material baking chamber	Refractory clay baking stone Stainless steel
• Shelf height	140 mm
• Heating type	Upper / lower heat
• Upper / lower heat can be controlled separately	Yes
• Steam generators	External steam-box
• Temperature range to	300 °C
• Temperature control	In 1 °C steps
• Number of programs	15 pre-installed programs 84 programmable manually adjustable program
• Number of baking phases	6
• Steaming	Set in the program Manual
• Time setting	1 to 99 minutes Manual baking time extension
• Automatic switch-on via timer	Yes
• Automatic pre-heating	Yes
• Control unit	Touch
• Interior lighting	LED
• USB connection	Yes
• Water intake temperature	10 °C to 40 °C
• Water connection	R3/4"
• Properties	Programs from other devices can be imported Programs with all parameters can be copied within the menu
• Important information	A pressure reducer is required from a water pressure of 3,5 bar Upstream connection of a water softener is always required
• Equipment connection	3 NAC

Component parts

Installation kit LBO70

- Set comprises: Condensate collection box, Condensate hoses, Installation materials, Water drainage hoses, Water supply pressure gauge, Water supply hoses, Vapour extractor
- Combination examples:
Deck oven CL6080-3
+ base frame CL6040-10
+ condensation hood LBO800
Deck ovens CL6080-3
+ proofer PR 6040-10
+ condensation hood LBO 800
+ proofer extension PR 6040-10

Convection ovens MC

Ideal cooking space climate in the convection oven: The crispy, freshly baked goods are particularly successful thanks to the optimal air circulation created by the really rapid fan direction change in the baking chamber. 99 programs, 6 baking phases and 6 parameters ensure a time-saving and uncomplicated workflow.

- Material baking chamber Stainless steel
- Format drawers 600 x 400 mm
- Heating type Convection
- Steam generators Direct injection
- Temperature range to 250 °C
- Temperature control In 1 °C steps
- Number of programs 15 pre-installed programs
84 programmable manually adjustable program
- Steaming Set in the program
Manual
- Number of baking phases 6
- Time setting 1 to 99 minutes
Continuous operation
Manual baking time extension
- Number of fans 1
- Fan speed 10 levels
- Reversing motor direction Yes
- With cleaning system Yes
- Automatic switch-on via timer Yes
- Automatic pre-heating Yes
- Automatic cooling Yes
- Control unit Touch
- Interior lighting In the door
LED
- USB connection Yes
- Water connection R3/4"
- Properties Bearing rails and rear wall can be detached
Double-winged door pane
Consistent results when the baking chamber is full
Fan stop after steaming process
Programs from other devices can be imported
Programs with all parameters can be copied within the menu
Fast change of fan direction
- Important information A pressure reducer is required from a water pressure of 3,5 bar
Upstream connection of a water softener is always required
The LBO10 installation kit is required for individual device operation (the corresponding installation kit must be selected for the combined device configuration)
- Equipment connection 3 NAC

Convection ovens HC

Steam generation perfectly tailored for the baked goods: Either via the external steam box or via direct injection - the AirFresh Box of the convection oven ensures a crispy exterior by quickly reducing the humidity. The multi-selection toggle switch with multi-coloured LED lighting enables intuitive operation with an additional visual signal.

Fermenting cupboard PR6040-10

Temperature, humidity and time can be electronically controlled for the fermentation process. The ideal climate for dough is created in particular by the innovative air circulation technology and external air supply.

- Format drawers 600 x 400 mm
- Distance between trays 70 mm
- Heating output 1,2 kW
- Steam generator External steam-box
- Steam generator output 1,2 kW
- Temperature range to 50 °C
- Temperature control In 0.1 °C steps
- Humidity 10 % to 95 %
- Automatic humidity control Up to 99 %
- Time setting 1 to 999 minutes
- Continuous operation
- Electronic
- LED
- 10 °C to 40 °C
- R3/4"
- 2 casters, 2 swivel casters with brakes
- 80 mm
- Innovative air circulation technology
- Water supply hose

Salamanders - MDI knob

Bartscher MDI Control System

MDI stands for "manual digital interface". It combines extremely intuitive knob controls with digital intelligence.

Precise temperature settings and a to-the-second timer enable an excellent, reproducible cooking process.

Once the cooking process is done, an audible signal alerts you and the most recently set time can be seen on the display.

Lift-Salamander 500-1Z-MDI

151520

RRP* 849.- €

GTIN 4015613815527

STAINLESS
STEEL

This salamander with intelligent MDI control leaves nothing to be desired: The heat output can be regulated via the lift function and using precise digital temperature and time settings. The memory function and an acoustic tone that sounds when the timer expires ensure optimised work processes. The energy-saving Eco mode keeps meals warm while saving on costs.

Deep fat fryers - MDI knob

Bartscher MDI Control System

MDI stands for "manual digital interface". It combines extremely intuitive knob controls with digital intelligence.

The precise temperature setting enables excellent, reproducible frying behaviour. The MDI control also offers a function for gentle liquefaction of the bar fat.

Deep-fat fryer MDI SNACK III Plus

Proper frying made easy: With the digital Bartscher MDI knob, the temperature can be set accurate to the degree. In addition, the current oil temperature can be checked at any time.

Contact grills "Panini" - MDI knob

Bartscher MDI Control System

MDI stands for "manual digital interface". It combines extremely intuitive knob controls with digital intelligence.

Precise temperature settings and a to-the-second timer enable an excellent, reproducible cooking process.

Once the cooking process is done, an audible signal alerts you and the most recently set time can be seen on the display.

Contact grill "Panini-MDI" 1GR

The "Panini-MDI" contact grill with ribbed grill plates offers everything a good contact grill needs: Grill plates with optimal thermal conductivity, a robust design and simple and intuitive toggle operation with digital display, timer and audible signal.

Table-top grills

Gas table-top grill TB1000PF

Easy assembly, easy to handle – practical tabletop unit for gas grilling and roasting outdoors.

- Number of burners 3
- Gas type Liquid gas
- Control pressure 50 mbar
- Ignition type Piezo ignition
- Connection 1/4"
- Consumption 728 g / h
- Including 3 gas nozzle sets 0.8 mm (30 mbar, 37 mbar, 50 mbar)
- Important information Only operate with liquid gas
Only suitable for outdoor use
- Power 10 kW

- ▶ Grill pan made of steel, enamelled
- ▶ Dim.: W 705 x D 540 x H 43 mm

- ▶ Only operate with liquid gas
- ▶ 3 gas nozzle sets 0.8 mm including

- ▶ Cooking grill made of stainless steel
- ▶ Dimensions: W 600 x D 475 mm

Waffle makers - MDI knob

Bartscher MDI Control System

MDI stands for "manual digital interface". It combines extremely intuitive knob controls with digital intelligence.

Precise temperature settings and a to-the-second timer enable an excellent, reproducible cooking process. Once the cooking process is done, an audible signal alerts you and the most recently set time can be seen on the display.

Waffle maker MDI 1HW211

The ideal conditions for the perfect waffle: A robust design, high performance, and easy & intuitive knob control with a digital display, timer, and audible signal. In addition, the cast iron heart-shaped baking trays boast high thermal conductivity.

Chafing fuels

Chafing fuel Bartscher 48-200

500160

RRP* 59.- €

GTIN 4015613845456

Fast heating effect and long burning time at buffets or catering events. The powerful chafing fuel heats chafing dishes and rechauds evenly, cleanly and without odour - without developing soot or smoke. The gel-like substance offers more safety in comparison with liquid fuels.

- | | |
|--------------------------------|-----------------------|
| • Content / can | 200 g |
| • Burning duration/can approx. | 2.5 hours |

Induction warming plates

Induction warming plate IW10

114366

RRP* 165.- €

GTIN 4015613714806

Whether for buffets, in front cooking areas, or for catering events, culinary creations can be kept warm easily in induction-compatible pots, pans, and chafing dishes.

- Material hob: Glass
- Size cerane surface: W 460 x D 315 mm
- Output max.: 1000 W
- Number of temperature levels: 11
- Temperature range: 50 °C to 100 °C
- Properties: Handles, on side
- Power load: 1 kW | 230 V | 50 Hz
- Size: W 530 x D 340 x H 65 mm
- Weight: 5.8 kg

- ▶ Flexible heat retention through induction
- ▶ 1 kW table-top appliance

- ▶ Handles on side

- ▶ Simple to operate
- ▶ Temperature control in 5°C steps

Induction warming plate IW10-EB

114367

RRP* 185.- €

GTIN 4015613715704

The simple operation, the exact temperature setting from 40°C to 100°C as well as the large warming station create optimal conditions during preparation, at the food counter and at the buffet - whether with round or square crockery.

- Material hob: Glass
- Size cerane surface: W 455 x D 310 mm
- Output max.: 1000 W
- Number of temperature levels: 13
- Temperature range: 40 °C to 100 °C
- Can be installed: Yes
- Combinability: 3 appliances can be switched in sequence in 1 power circuit
- Power load: 1 kW | 230 V | 50 Hz
- Size: W 490 x D 345 x H 67 mm
- Weight: 5.4 kg

- ▶ Ideal for use in preparation, the food counter and at the buffet

- ▶ Can also be used as a table-top unit

- ▶ Simple to operate
- ▶ Temperature control in 5°C steps
- ▶ Lock button (child protection)

- ▶ Combinable: 3 appliances can be switched in sequence in 1 power circuit

Induction warming plate IW3

105601

RRP* 298.- €

GTIN 4015613848723

This induction warming plate has an appealing design and an impressive power of 500 W. Since up to four appliances can be combined in series, this makes for an exceptional solution for hot buffets and catering.

- Material hob: Glass
- Size cerane surface: W 390 x D 390 mm
- Output max.: 500 W
- Number of temperature levels: 9
- Temperature range: 60 °C to 100 °C
- Combinability: 4 appliances can be switched in sequence in 1 power circuit
- Power load: 0,5 kW | 230 V | 50/60 Hz
- Size: W 395 x D 395 x H 100 mm
- Weight: 7.5 kg

- ▶ Table-top warming plate
- ▶ Ideally suited for warm buffets and catering

- ▶ Keeping warm with induction
- ▶ 500 Watt
- ▶ Pot detection

- ▶ Easy operation
- ▶ Temperature control in 5°C steps

- ▶ Combinable: 4 appliances can be switched in sequence in 1 power circuit

Induction warming plate IW3

The design of this hot plate makes every buffet look more appealing. The practical solution of connecting and switching 4 appliances with the optionally available cable in one circuit also ensures a uniform, high-quality look when serving food.

- Material: Steel
- Material hob: Glass
- Size cerane surface: W 390 x D 390 mm
- Output max.: 300 W
- Number of temperature levels: 12
- Temperature range: 40 °C to 95 °C
- Combinability: 4 appliances can be switched in sequence in 1 power circuit
- Power load: 0,3 kW | 230 V | 50-60 Hz

105865

- ▶ Table-top warming plate
- ▶ Ideally suited for warm buffets

- ▶ Easy operation
- ▶ Temperature control in 5°C steps

105867

- ▶ 4 appliances can be switched in sequence in 1 power circuit
- ▶ Connection cable IW3 page 207

RRP* 59.- €

Induction warming system

Induction warming system IWS650

105866

RRP* 2,449.- €

GTIN 4015613812687

With the „invisible“ induction warming system, the worktop can be used either as a warming area or work surface. Installed under a worktop, the impressive technology allows a chafing dish to be heated up to 100 °C while the worktop temperature reaches a maximum of 35 °C.

- Output max. 650 W
- Maximum worktop temperature 35 °C
- Suitable worktop material
Glass
Ceramic
Marble
Quartz
Stone
- Suitable worktop thickness 4 - 20 mm
- Number of output levels 20
- Temperature range induction warming system to 55 °C
- Temperature range chafing dish Up to 100 °C
- Control panel Cable length: 2 m
Separate
- Suitable worktop material 1/1 GN
2/3 GN
Round up to 40 cm
- Including 1 spacer
- Power load 0,65 kW | 230 V | 50 Hz
- Size W 340 x D 340 x H 175 mm
- Weight 4.9 kg

- ▶ Induction warming system for more flexibility
- ▶ Installation below the worktop
- ▶ Worktop can be used either as a warming station or work surface

- ▶ Temperature range induction warming system: up to 55 °C
- ▶ Temperature range chafing dish: up to 100 °C

- ▶ Spacer
- ▶ For optimal heat transfer without heating the work surface
- ▶ Maximum worktop temperature: 35 °C

- ▶ Suitable worktop material:
Glass
Ceramic
Marble
Quartz
Stone

Plate warmer T12

A120814

RRP* 98.- €

GTIN 4015613687285

The plate warmer is very space-saving due to its special shape and heats up to twelve plates to about 65°C. When it is not needed, the lids allow hygienic and safe storage.

- Capacity plates 12
- Diameter plates max. 280 mm
- Temperature range to 65 °C
- Power load 0,3 kW | 230 V | 50 Hz
- Size W 320 x D 250 x H 105 mm
- Weight 2.9 kg

- ▶ Space-saving design
- ▶ Hygienic and safe storage

- ▶ Fits 12 plates

- ▶ Temperature range up to 65 °C

Plate warmer f. 30-40 plates, SS

103069

RRP* 689.- €

GTIN 4015613475592

Table-top unit for the work surface or the buffet.

- Capacity plates 30 - 40
- Diameter plates max. 320 mm
- Temperature range 30 °C to 80 °C
- Type of door Rotating door
- Door hinge side Runs inward
- Power load 0,6 kW | 230 V | 50 Hz
- Size W 465 x D 465 x H 565 mm
- Weight 22.4 kg

- ▶ Capacity: 30 - 40 plates
- ▶ Plate diameter: 320 mm

- ▶ Rotating glass door
- ▶ Space-saving, runs inwards

Plate dispenser, electrically heated

103065

RRP* 1,659.- €

GTIN 4015613437774

- Capacity plates 2 x 50
- Diameter plates max. Max. 2 x 32 kg
- Number of warming plates 300 mm
- Temperature range 2
- Swivel casters 30 °C to 110 °C
- Power load 4 swivel casters, 2 with brake
- Size 2 kW | 230 V | 50 Hz

Cups warmer 48 cups

103067

RRP* 409.- €

GTIN 4015613469218

Coffee cups and spoons within easy reach. Up to 48 coffee cups can be kept warm at the same time in the cup warmer with its practical rotating base.

- Material Aluminium
- Capacity cups max. 48
- Diameter cups max. 90 mm
- Size Cupholder Ø 95 mm | Height: 300 mm
- Temperature range 30 °C to 45 °C
- Properties 4 containers for teaspoons, detachable
With rotating base
- Power load 0,2 kW | 230 V | 50/60 Hz
- Size W 360 x D 360 x H 415 mm
- Weight 7.5 kg

- ▶ With rotating base
- ▶ For simple removal and refilling

- ▶ Capacity: 48 cups
- ▶ Cup diameter: 90 mm

- ▶ 4 containers for teaspoons
- ▶ Detachable for easy cleaning

Cup warmer TA720

103076

RRP* 439.- €

GTIN 4015613708867

Pre-warmed cups for extra coffee enjoyment – the separately controllable heat supply can be progressively adjusted for both levels.

- Capacity cups max. 72
- Size utility space W 280 x D 295 mm
- Height inside, each 175 mm
- Temperature range to 60 °C
- Properties With worktop surface, dimensions: W 250 x D 250 mm
- Power load 0,14 kW | 230 V | 50/60 Hz
- Size W 320 x D 345 x H 550 mm
- Weight 10.7 kg

- ▶ 2 levels with separately controllable heat supply
- ▶ Can be regulated steplessly

- ▶ Max. cup capacity: 72

- ▶ Dimensions of each storage space: W 280 x D 295 x H 175 mm

- ▶ Unheated storage space on the top of the device
- ▶ Perfect for saucers

Cup warmer TA1440

103079

RRP* 879.- €

GTIN 4015613756837

Up to 103 cups can be warmed to the perfect temperature on the 3 heated surfaces. The elegant cup warmer can be used for coffee mugs, espresso cups, or latte macchiato glasses. Once the temperature has been set initially, the warmer is operated easily at the push of a button.

- Capacity cups max. 103
- Size utility space W 285 x D 335 mm
- Height inside, each 180 mm
- Temperature range 30 °C to 60 °C
- Power load 0,3 kW | 230 V | 50 Hz
- Size W 310 x D 420 x H 540 mm
- Weight 14.4 kg

- ▶ 3 levels with integrated heating
- ▶ Can be regulated steplessly

- ▶ Capacity 103 cups max.

- ▶ Dimensions of each utility surface: W 285 x D 335 mm
- ▶ Distance between shelves: 180 mm

- ▶ Easy to operate via on/off switch

RRP* 19.- €

Self-created ice cream variations and frozen yoghurt - with the ice-cream maker 1500 every type will be a success. Thanks to the „Keep Cool“ function, you won't slip up, even when things get busy.

- Material: Plastic
- Designed for: Frozen yogurt, Sorbets, Half-frozen desserts, Ice cream
- Content: 1,5 litre(s)
- Ice production: Approx. 30 to 60 minutes
- Cooling: Compressor
- Freezing range to: Approx. -25 °C
- Properties ice tray: Material: Stainless steel, Can be removed
- Including: 1 ice portioning spoon, 1 measuring beaker
- Power load: 0,12 kW | 230 V | 50 Hz
- Size: W 380 x D 270 x H 245 mm
- Weight: 8.9 kg

Ice cabinet 2x5L-F

A perfect way to store homemade ice cream - the ice cabinet offers the perfect solution for keeping desserts cool and attractively displayed after production. The low-lying containers minimise the formation of ice on the surfaces.

- Material: Plastic, Steel
- Depth container max.: 150 mm
- Type of glass: Double glazing
- Safety glass: Yes
- Temperature range: -15 °C to -18 °C
- Energy efficiency class: A (EU No. 2019 / 2018)
- Climate class: 4
- Type of door: Lifting door
- Interior lighting: LED
- Including: Rack for GN containers, GN containers
- Not included in delivery: GN containers
- Power load: 0,184 kW | 230 V | 50 Hz

► Suitable for ice cream and sorbet

► Ice cream container 5000
page 274

► Can be equipped with:
2 GN 1/3 5-litre containers or
4 GN 1/6 2.5-litre containers or
2 ice cream containers à 5 litres

► Can be equipped with:
3 GN 1/3 5-litre containers or
6 GN 1/6 2.5-litre containers or
3 ice cream containers à 5 litres

Ice Cream Cabinet 4x6.5L-F

700248

RRP* 1,349.- €

GTIN 4015613848761

For custom ice cream specialties – this ice cream cabinet has four removable ice cream containers, making it a space-saving solution for preparing desserts in every restaurant kitchen. The flat glass lid with LED lighting allows you to see all of your tasty ice cream treats at a glance. Temperature losses due to opening the cabinet to check remaining amounts are therefore prevented.

- Volume max. 26 litre(s)
- Capacity max. 4 ice cream containers, 6.5 litres each, W 360 x D 165 x H 150 mm
- Depth container max. 150 mm
- Type of glass Double glazing
- Safety glass Yes
- Temperature range -18 °C to -25 °C
- Climate class 4
- Energy consumption 1739 kWh / an
- Energy efficiency class B (EU No. 2019 / 2018)
- Type of door Lifting door
- Interior lighting LED
- Including 4 ice cream containers, 5 litres each, W 360 x D 165 x H 115 mm, stainless steel
- Important information Designed for kitchens
- Power load 0,21 kW | 230 V | 50 Hz
- Size W 867 x D 735 x H 375 mm
- Weight 43.8 kg

► Designed for 4 containers

► Practical for serving
► Worktop on device

Ice Cream Container 5000

- Designed for: Ice cabinet 2x5L-F, Ice cabinet 3x5L-F, Ice cabinet 4x6, L-F
- Material: Stainless steel
- Content: 5 litre(s)
- Size: W 165 x D 360 x H 115 mm
- Weight: 1 kg

- Weight 51 kg

► 2 sliding glass lids

► Single-strength glass, double-tempered
► Safety glass

► LED lighting

► Lockable

A close-up, grayscale photograph of the interior of a Bartscher dishwasher. The focus is on the upper cutlery tray, which is white with a diamond-patterned mesh. Several white plates are visible, some standing upright and others lying flat. The lower part of the image shows the perforated metal filter and the front panel of the dishwasher, which has the 'Bartscher' name embossed on it.

WAREWASHERS

Dishwashers have to be designed for harsh everyday gastronomy use in terms of performance, efficiency and durability.

The following pages will make you spotless offers at an excellent price/performance ratio.

Basket transport dishwasher KTS500 R

110630

RRP* 17,798.- €

GTIN 4015613806501

A reliable partner for high-intensity washing. The KTS500 with its left-running transport system is really easy to use and can be tailored to everyday needs. It can be used for washing plates, cups, glasses and trays.

- Model: Transport system, stainless steel
Left-running appliance
- Basket dimensions: 500 x 500 mm
- Glasses height max.: 450 mm
- Plate height max.: 450 mm
- Tray size max.: 530 x 325 x 25 mm
- Output / hour max.: 70 - 100 baskets
- Run-time: 35 / 94 seconds
- Water supply: 2 x G 3/4"
- Water outlet: 1 x 1/4 G
- Water pressure: 2 - 5 bar
- Water consumption at 2 bar: 150 l/hour.
- Water intake temperature: 55 °C (Cold water connection on request)
- Tank volume: Rinsing tank: 80 litres
Boiler: 28,5 litres
- Tank heater: 9 kW
- Boiler heater: 9 kW
- Height when door is open: 1900 mm
- Height adjustable: 1565 mm to 1635 mm
- Including: 1 cutlery holder
1 glasses basket
1 tray basket
1 plate basket
Waste water hose
- Not included in delivery: 19 kW | 400 V | 50 Hz
- Power load: 3 NAC
- Equipment connection: W 415 x D 485 x H 672 mm
- Size: 30.8 kg
- Weight:

- ▶ Easy operation
- ▶ Double walled

- ▶ Rinsing arm sets, can be removed without tools
- ▶ Water intake temperature: 55 °C

Automatic coffee machine KV1 Deluxe

190033

RRP* 3,598.- €

GTIN 4015613806181

Caffè crema, espresso, latte macchiato and more than 30 more specialty coffees – they're all possible with the KV1 Deluxe. The powerful heating elements and milk temperature sensor ensure the perfect drink temperature. Because the water and coffee are dispensed at the same time, the preparation time is quicker, particularly for caffè americano. The features of the Deluxe are rounded off by the incredibly intuitive touch display – for top coffee enjoyment at the touch of a button.

109881

RRP* 105.- €

GTIN 4015613630731

► Capacity at 10° KH (carbonate hardness): 1600 litres

A good drinking water quality gives drinks a delicious taste. The water filter eliminates compounds that cause lime deposits. At the same time, the water is enriched with mineral compounds.

- Output capacity 1,600 litres / at 10° KH (carbonate hardness)
- Water connection 1/2"
- Water pressure 1.5 - 6 bar
- Water intake temperature from 5 °C
- Water intake temperature to 30 °C
- Design Disposable system
For horizontal and vertical installation
Coffee machines
Fully automatic coffee

► 20,000 rpm
► Fine stainless steel sieve

► Practical overall package
► Including plastic beaker, content 1 litre

► Easy to clean
► Attached parts are dishwasher-suitable

Juicer Powerfresh

150197

RRP* 885.- €

GTIN 4015613758640

For professional high-yield juicing. Together with the large filling shaft and pulp container, the powerful motor enables easy juicing of whole fruits or even vegetables.

- Material
 - Plastic
 - Stainless steel
- Rpm max.
 - 3,000 r. / min. (50 Hz)
- Speed control
 - 1 level
- Diameter filling shaft
 - 80 mm
- Safety switch
 - Yes
- Properties
 - XXL filling shaft for whole fruits (e.g. apples) or vegetables
 - Storage capacity Trester container: 7 litres
 - Fine stainless steel filter
 - High-performance, low-noise motor
 - Attached parts are dishwasher-suitable (except basic unit)
- Power load
 - 0,7 kW | 230 V | 50/60 Hz
- Size
 - W 260 x D 450 x H 505 mm
- Weight
 - 12.9 kg

- High-performance, low-noise motor
- 3,000 rpm

- XXL filling chute, 80 mm
- For whole fruits and vegetables

- Closable spout
- Spout height: 210 mm

Juicer 50

150186

RRP* 2,198.- €

GTIN 3700200050009

With its powerful, low-noise motor, the juicer is perfect for juice bars and counter areas. Without prior cutting, fruit and vegetables can be made into high-quality juice thanks to the extra-fine, high-yield sieve.

- Rpm max.
 - 3,000 r. / min. (50 Hz)
 - 3,600 r. / min. (60 Hz)
- Speed control
 - 1 level
- Diameter filling shaft
 - 79,5 mm
- Safety switch
 - Yes
- Properties
 - Extracting juice from whole fruits (e.g. apple) or vegetables easily
 - Production: Up to 100 litres per hour
 - Stainless steel basket with filtration (0.5 mm) for a high yield and high-quality juice
 - Powerful, low-noise asynchronous motor (800 W)
- Power load
 - 0,8 kW | 230 V | 50/60 Hz
- Size
 - W 480 x D 450 x H 260 mm
- Weight
 - 14.5 kg

- Powerful and efficient motor
- Up to 3,600 rpm
- Basket with stainless steel filter
- Up to 100 litres per hour

- Exclusive Ezy-clean™ system
- Basin, pulp container and lid removable and dishwasher-safe

- Spout height: 200 mm

• Filling shaft

1 x W 115 x D 75 mm

1 x Ø 52 mm

• Properties

Magnetic switch for collection tray and filling chute

Very large filling chute

Removable lid, suitable for dishwasher

1 collection tray (1/3 GN, 175 mm deep)

1 stamper

• Including

• Power load

0,617 kW | 230 V | 50 Hz

• Size

W 290 x D 530 x H 515 mm

• Weight

18.3 kg

► Practical: 2 filling options
► In addition to the filling chute, the stuffing shaft is suitable for filling small food portions quickly

► 18 blades for slices, sticks, grated food and cubes, 1 filling chute and 1 blade stand offer the highest level of flexibility

Vacuum packaging machine 305/15L

300748

RRP* 149.- €

GTIN 4015613710907

Varied functions for flexible use – whether for gentle or normal air vacuuming, vacuuming with vacuum containers, marinating or sealing.

- Length welding rod 305 mm
- Number of welded joints 1
- Welding duration can be regulated 2 levels
- Vacuum pump 15 l/min. (0.9 m³/h)
- Maximum vacuum -800 mbar
- Vacuuming intensity can be regulated yes
- Properties Roll holder with integrated blade
- Including 1 vacuuming film roll (width 22 cm, length 3 m)
- 1 vacuuming film roll (width 28 cm, length 3 m)
- 1 connecting hose (for external vacuuming)
- Power load 0,13 kW | 230 V | 50 Hz
- Size W 400 x D 180 x H 92 mm
- Weight 2.5 kg

- ▶ Combined vacuuming and sealing
- ▶ Sealing
- ▶ Marinating
- ▶ Vacuuming with vacuum containers (available separately)

- ▶ Roll holder with integrated blade

- ▶ Connection for vacuum containers

Vacuum packaging machine 315/20L

300750

RRP* 375.- €

GTIN 4015613811451

Give food a longer life! It's just one advantage of using a vacuum packaging machine. After being packed air-tight, foods can be refrigerated or frozen, further processed and served by the portion. This optimises food usage and prevents waste.

- Length welding rod 315 mm
- Number of welded joints 1
- Welding duration can be regulated No
- Vacuum pump 20 L / min. (approx. 1.2 m³ / hours)
- Maximum vacuum -980 mbar
- Vacuuming intensity can be regulated yes
- Including 1 vacuuming film roll (width 28 cm, length 6 m)
- Power load 0,22 kW | 230 V | 50 Hz
- Size W 397 x D 345 x H 105 mm
- Weight 4.85 kg

- ▶ Combined vacuuming and sealing
- ▶ Marinating
- ▶ Sealing
- ▶ Vacuuming with vacuum container (available separately)

- ▶ Roll holder with integrated blade

- ▶ Connection for vacuum container

Vacuum packaging machine 420/20L

300746

RRP* 489.- €

GTIN 4015613699257

Always ready: The vacuum packaging machine is ready for immediate use with the roll holder and integrated blade. The unit is best suited to vacuuming, marinating and sealing smaller quantities.

- | | |
|-------------------------------------|--|
| • Length welding rod | 420 mm |
| • Number of welded joints | 2 |
| • Welding duration can be regulated | 2 levels |
| • Vacuum pump | 20 L / min. (approx. 1.2 m ³ / hours) |
| • Maximum vacuum | -900 mbar |
| • Properties | Roll holder with integrated blade |
| • Including | 1 vacuuming film roll (40 cm x 6 m) |
| • Power load | 0,36 kW 230 V 50 Hz |
| • Size | W 500 x D 395 x H 140 mm |
| • Weight | 6.6 kg |

- ▶ Combined vacuuming and sealing
- ▶ Sealing
- ▶ Marinating
- ▶ Vacuuming using vacuuming container (available as an option)

- ▶ Roll holder with integrated blade

- ▶ Connection for vacuuming container

Component parts

Vacuum sealer roll set 220

- Set comprises: 2 vacuum film rolls
- Film thickness: 80 µm
- Width roll: 22 cm
- Length roll: 5 m
- Sous-Vide suitable: Yes
- Size: W 220 x D 40 x H 40 mm
- Weight: 0.46 kg
- GTIN: 4015613728506

300418

RRP* 17.50 €

Vacuum sealer roll set 280

- Set comprises: 2 vacuum film rolls
- Film thickness: 80 µm
- Width roll: 28 cm
- Length roll: 5 m
- Sous-Vide suitable: Yes
- Size: W 50 x D 280 x H 50 mm
- Weight: 0.51 kg
- GTIN: 4015613474953

300419

RRP* 19.50 €

Vacuum container

- Material: Plastic
- Content: 1,5 litre(s)
- Stackable: Yes
- Size: W 135 x D 135 x H 180 mm
- Weight: 0.3 kg
- GTIN: 4015613632445

300422

RRP* 33.- €

Vacuuming sealer roll set 400

- Set comprises: 2 vacuum film rolls
- Film thickness: 80 µm
- Width roll: 40 cm
- Length roll: 6 m
- Sous-Vide suitable: Yes
- Size: W 400 x D 65 x H 65 mm
- Weight: 0.86 kg
- GTIN: 4015613728599

300424

RRP* 24.50 €

Vacuum bag, structured

- Content: 20 litre(s)
- Bag size: 400 x 600 mm
- Film thickness: 90 µm
- Design: Seersucker (ribbed on one side)
- Sous-Vide suitable: Yes
- Order quantity unit: 1 box (50 bags)
- Size: W 400 x D 600 x H 1 mm
- Weight: 1.89 kg
- GTIN: 4015613729220

300414

RRP* 49.- €

Vacuum packaging machine K 300/60L

300747

RRP* 779.- €

GTIN 4015613699264

Everything under control: The chamber vacuum packaging machine is equipped with a glass lid and a manometer to monitoring underpressure. A clamp bar in the chamber prevents the vacuuming bag from slipping.

• Material lid	Glass
• Length welding rod	300 mm
• Number of welded joints	2
• Welding duration can be regulated	3 - 9 seconds
• Chamber dimensions	W 305 x D 320 x H 90 mm
• Vacuum pump	60 L / min. (approx. 4 m ³ / hours)
• Maximum vacuum	-900 mbar
• Vacuuming intensity can be regulated	yes
• Including	30 vacuuming bags (280 x 330 mm)
• Power load	0,35 kW 230 V 50 Hz
• Size	W 375 x D 440 x H 271 mm
• Weight	15.1 kg

- Combined vacuuming and sealing
- Manual sealing
- Marinating

- Vacuuming intensity can be regulated
- Sealing duration can be regulated: 3 - 9 seconds

- A clamp bar in the chamber prevents the vacuuming bag from slipping

Vacuum packaging machine K 290/77L

300749

RRP* 1,269.- €

GTIN 4015613794822

Vacuuming, marinating and sealing – this chamber vacuum packaging machine with its 5 controllable intensity levels offers diverse possibilities for storing and preparing food.

• Material lid	Polymethyl methacrylate (PMMA)
• Length welding rod	290 mm
• Number of welded joints	1
• Welding duration can be regulated	0 - 6 seconds
• Chamber dimensions	W 350 x D 300 x H 80 mm
• Vacuum pump	approx. 77 L / min. (4.62 m ³ / hours)
• Maximum vacuum	-999 mbar
• Vacuuming intensity can be regulated	yes
• Power load	0,63 kW 230 V 50 Hz
• Size	W 360 x D 520 x H 350 mm
• Weight	21.8 kg

- Combined vacuuming and sealing
- Marinating

- Vacuuming intensity can be regulated
- Sealing duration can be regulated: 0 - 6 seconds

Vacuum packaging machine K 250/150L

300301

RRP* 2,998.- €

GTIN 4015613708355

Powerful and solid chamber vacuum machine with intuitive control. Enclosed insert plates achieve height compensation in the chamber as required.

- Material lid: Plexiglas
- Length welding rod: 250 mm
- Number of welded joints: 1
- Welding duration can be regulated: 6 levels
- Chamber dimensions: W 256 x D 370 x H 125 mm
- Vacuum pump: 150 L / min. (8-9 m³ / hours)
- Maximum vacuum: -995 mbar
- Vacuuming intensity can be regulated: No
- Including: 2 insert plates for height compensation (250 x 300 x 17 mm)
- Power load: 0,5 kW | 230 V | 50 Hz
- Size: W 320 x D 540 x H 265 mm
- Weight: 29 kg

► Functions: Combined vacuuming and sealing

► Sealing duration can be regulated: 6 levels

Component parts

Vacuum bags G1,2L

Bin bag stand 120L

860015

RRP* 119.- €

GTIN 4015613802176

Hygienic, fast and easy – the large foot pedal on the frame makes clean disposal of rubbish simple. The no-lid design means that the bin bag stand can also be placed in corners with low clearance. Another plus: The sealing mechanism keeps unpleasant odours inside the bin bag where they belong.

- Designed for: 120 litre bin bags
- Model: Suspension device
Seal with clamping rubber
Support pour sac poubelle
- Operation: Foot-operated (pedal)
- Swivel casters: 2 castors with locking brakes
- Delivery state: Building kit (simple assembly)
- Not included in delivery: Bin bags
- Size: W 590 x D 500 x H 955 mm
- Weight: 4.2 kg

- ▶ Hygienic and simple
- ▶ Opens using a foot pedal

- ▶ Seal with clamping rubber
- ▶ Quick bin bag replacement

- ▶ Frame for bin bags

- ▶ Stable stainless steel design
- ▶ 2 feet
- ▶ 2 swivel casters with brakes

- Air temperature Approx. 80 °C
- Air output 31,67 litres / sec.
- Start/Stop automatic via infrared sensor Yes
- Drying time max. Approx. 60 seconds
- Including Attachment material
- Power load 1,35 kW | 230 V | 50-60 Hz
- Size W 250 x D 170 x H 240 mm
- Weight 3.6 kg

- ▶ Small but powerful
- ▶ Air temperature: Approx. 80°C
- ▶ Drying time max.: Approx. 60 seconds

- ▶ Start/Stop automatic via infrared sensor

- ▶ On/off switch

Hand dryer, 2,3kW, SS

850001

RRP* 269.- €

GTIN 4015613482019

- Air temperature Approx. 60 °C
- Air output 58 litres / sec.
- Start/Stop automatic via infrared sensor Yes
- Drying time max. Approx. 60 seconds
- Including Attachment material
- Power load 2,3 kW | 230 V | 50 Hz
- Size W 260 x D 235 x H 210 mm
- Weight 4.8 kg

- ▶ Automatic start/stop mechanism using infrared sensor

- ▶ Rotating air outlet nozzle

Hand Dryer Jet 1800

850002

RRP* 769.- €

GTIN 4015613610665

Powerful nozzles enable fast and thorough hand-drying. This efficient hand-drying method is both hygienic and cost-effective.

• Material	Plastic Painted
• Air temperature	Same ambient temperature
• Air output	47 litres / sec.
• Drying time max.	Approx. 30 seconds
• Start/Stop automatic via infrared sensor	Yes
• Including	Attachment material
• Power load	1,8 kW 230 V 50 Hz
• Size	W 295 x D 240 x H 650 mm
• Weight	10.2 kg

- 2 high-performance air nozzle strips
- Air output: Approx. 47 litres/sec.
- Drying time max.: Approx. 30 seconds

- Removeable collection container for condensation at bottom of appliance

- Automatic start/stop mechanism using infrared sensor

Room air cleaner W4000

850200

RRP* 149.- €

GTIN 4015613769356

With a maximum air output of 400 m³/h, the W4000 cleans the air of viruses, allergens, and odours. The different colours of the LED ring provide information about the current air quality as well as creating an attractive coloured lighting effect in the room.

• Designed for	Rooms up to 40 m²
• Material	Plastic
• Number of filters	1
• Maximum air performance	400 m³/h
• Controllable air quantity	3 levels
• Air purification	With UV light
• Air quality sensor	Yes
• Time setting	2, 4, or 8 hours
• Power load	0,05 kW 230 V 50/60 Hz
• Size	W 300 x D 270 x H 565 mm
• Weight	5 kg

- Designed for rooms up to 40 m²
- Maximum air output: 400 m³/h
- Controllable air quantity: 3 settings

- Double air quality display
- Digital display
- Ring of LED lights in different colours

HEPA filter W4000

- Material: Plastic (PP, PET)
- Filter class: HEPA H13
- Service life: 2,200 operating hours
- Size: W 215 x D 215 x H 260 mm
- Weight: 0.7 kg
- GTIN: 4015613770536

850210

RRP* 29.- €

Barrier stand 1800

603101

RRP* 45.- €

GTIN 4015613757865

Handy barrier post system for extra safety and order – the 1.8 metre tape, 3 integrated tape fasteners and attached safety lock ensure safe, flexible and needs-based use anywhere.

- Model Upright unit
- Tape material Nylon
- Tape length 1,8 m
- Automatic tape winding Yes
- Number of tape fasteners 3
- Safety lock Yes
- Properties Pull-out tape
- Size of base: Ø 360 mm
- Important information Only for use in combination: Barrier stand 1800, barrier wall tape 2000 or barrier wall tape 3000
- Size W 360 x D 360 x H 915 mm
- Weight 6.4 kg

► Barrier strap (post version)

► Pull-out nylon strap
► Length: 1.8 m
► Colour: Black

► 3 integrated strap fasteners

► With safety lock

Barrier wall tape 2000

For use as a passenger guidance system in airports or at events and as a barrier to cordon off individual areas in supermarkets, petrol stations and restaurants. The 2|3 metre tape, 2 integrated tape fasteners and attached safety lock ensure safe operation.

- Model Wall-mounting
- Tape material Nylon
- Automatic tape winding Yes
- Number of tape fasteners 2
- Safety lock Yes
- Not included in delivery Attachment material
- Important information Only for use in combination: Barrier stand 1800, barrier wall tape 2000 or barrier wall tape 3000

► Barrier strap for wall-mounting

► Pull-out nylon strap
► Colour: Black

► 2 integrated strap fasteners

► With safety lock

Insect killers

Insect killer IV-48

300351

RRP* 85,- €

GTIN 4015613762371

This chemical-free insect killer for inside use has a large effective range along with enduring, energy-saving LED technology.

- Material Plastic
- Effective radius Approx. 15 m
- Grid voltage 4,000 V
- Light output 13 W, UV-A-LED
- Design Ceiling unit
Upright unit
- Important information Mount prepared for ceiling attachment; chain not included
- Power load 0,01 kW | 230 V | 50-60 Hz
- Size W 485 x D 100 x H 263 mm
- Weight 1.9 kg

► Reliable insect killing using electric shock

► Energy-saving operation thanks to modern LED technology
► Light output: 13 W, UV-A-LED

► Easy cleaning
► Easily removeable drawer

► Design:
Ceiling unit
Upright unit

Insect killer IV-22

Without chemicals, insects are killed using electricity and drop into an easily removeable drawer.

I. Application of the International Conditions of Sale

- These International Conditions of Sale apply to all contracts made with the customers of Bartscher GmbH – hereinafter referred to as Bartscher – on or after 1 December 2019 whose preponderant object is the supply of goods to the customer. Additional obligations assumed by Bartscher do not affect the application of these International Conditions of Sale.
- Terms of business of the customer conflicting with or differing from these International Conditions of Sale or the provisions applicable according to section X.-2. or X.-3. do not bind Bartscher, even if Bartscher does not object to them or even if Bartscher unconditionally renders performance or receives the customer's performance.
- These International Conditions of Sale do not apply, if the customer buys the goods for personal, family or household use and if Bartscher knew or should have known that at the time of the formation of the contract.

II. Formation of the Contract

- The customer is under an obligation to give written notice to Bartscher prior to the formation of a contract if
 - the goods to be delivered are to be fit not only for normal use or the customer orders on the assumption of a particular purpose or his expectations are based on public statements, advertising messages or other circumstances outside the formation of the concrete contract,
 - the goods to be delivered will be used in circumstances which are unusual or which present a particular risk to health, safety or the environment, or which require a more demanding use,
 - there is a risk of atypical damages or unusual amounts of loss, in particular exceeding the limits set up in section VII.-1.-d), of which the customer is or ought to be aware or
 - the goods to be delivered will be used in Germany or will be delivered to customer's clients resident in Germany.
- Orders of the customer are to be put in writing. If the customer's order deviates from the proposal or the tender submitted by Bartscher, the customer will emphasize the differences as such. Illustrations and drawings just like the measures and weight indications featuring in Bartscher's proposals or offers only constitute guidelines.
- All orders, in particular also those received by employees of Bartscher, will take effect exclusively if followed by a written acknowledgement of the order by Bartscher. The actual delivery of the goods ordered, any other conduct of Bartscher or silence on the part of Bartscher does not allow the customer to assume the formation of the contract. Bartscher can dispatch such written acknowledgement of the order up to and including fourteen (14) calendar days after the customer's order has been received by Bartscher. Until this time, the customer's order is irrevocable.
- The written acknowledgement of the order by Bartscher shall be received in time, if it is received by the customer within fourteen (14) calendar days after its date of issue. The customer will inform Bartscher without delay in writing, if the written acknowledgement of the order is received with delay.
- The written acknowledgement of the order by Bartscher sets out all the terms of the contract and brings the contract into effect even if - except for the description, the price for the goods and the quantity to be delivered - the written acknowledgement is not consistent with the declarations of the customer in every respect, especially with reference to the exclusive application of these International Conditions of Sale. The contract will only fail to come into existence if the customer objects in writing that the acknowledgement of the order by Bartscher is not completely consistent with the declarations of the customer, the customer specifies the deviations in writing and if the objection is received by Bartscher within a short time, at the latest seven (7) calendar days, after receipt of the written acknowledgement of the order by the customer.
- Particular wishes of the customer, namely particular expectations of the customer regarding the usage or the condition of the goods, guarantees or warranties with reference to the goods or the performance of the contract, as well as performance declarations, instruction manuals or security-related information requested by the customer in electronic or print form, require express written confirmation by Bartscher in every case.
- Confirmations of the contract produced by the customer are of no effect without any objection by Bartscher being necessary. In particular, neither the actual delivery of the goods, any other conduct of Bartscher or silence on the part of Bartscher shall give rise to any belief by the customer in the relevance of his confirmation.
- Bartscher's employees, commercial agents or other sales intermediaries are not authorized to dispense with the requirement of a written acknowledgement of the order by Bartscher or to make promises which differ from its content or guarantees. If and to what extent such persons are authorized to make or receive declarations with effect for or against Bartscher, is to be determined according to German law.
- Amendments to the concluded contract always require written confirmation by Bartscher.

III. Obligations of Bartscher

- Subject to a failure of delivery on part of his suppliers despite a congruent covering transaction or to an exemption according to section VII.-1. b) Bartscher must deliver the goods specified in the written acknowledgement of the order and transfer the property in the goods. Bartscher is not obliged to perform obligations not stated in the written acknowledgement of the order by Bartscher or in these International Conditions of Sale, in particular Bartscher is under no obligation if not explicitly agreed upon in writing to render planning-services, to give information regarding the goods, to furnish documents or certificates regarding the goods, to deliver accessories, to install additional safety devices, to carry out assemblies or to advise the customer.
- Bartscher's obligations under the contract made with the customer are owed only to the customer. Third parties not involved in the formation of the contract, in particular the customer's clients, are not entitled to request delivery to be made to them or to assert any other claim arising from the customer's contract with Bartscher. The customer's entitlement to take delivery continues to exist even if he assigns rights to third parties.
- Taking account of the tolerances customary in trade, Bartscher undertakes to deliver to the customer goods of the agreed kind and quantity which meet the common standards applicable in Germany and ensures that at the time of delivery the goods are free from rights or claims of private third parties which could prevent its use within the European Union. If the goods cannot be delivered in the condition offered at the time of the formation of the contract because technical improvements to goods of series production were made, Bartscher is entitled to deliver the goods with the technical improvements. Bartscher is entitled to make part deliveries and to invoice them separately.
- If further specification is required in relation to the goods to be delivered, Bartscher will carry this out having regard to his own interests and to the identifiable and legitimate interests of the customer. A request to the customer to specify the goods, or to participate in the specification, is not required. Bartscher does not undertake to inform the customer of the specification he has made or to give the customer the option of a differing specification.
- Bartscher undertakes to place the goods packaged, marked and labelled according to German standard at disposal for collection by the customer FCA (Incoterms 2020) at the place of delivery indicated in the written acknowledgement of the order or - if a place of delivery is not indicated - at the premises in 31154 Salzkotten/Germany at the agreed time of delivery. Previous separation or marking of the goods or notification to the customer of the goods being placed at disposal is not required. Under no circumstances, not even when other clauses of the Incoterms are agreed, is Bartscher obliged to inform the customer of the delivery or a failure to take the goods by the person nominated according to section IV.-6., to examine the goods with respect to their conformity with the contract on the occasion of delivery, to check the operational safety of the means of transport and the transportation safe loading or to furnish proof of the delivery being effected. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- The organization of the transport and the insurance of the goods beyond the place of delivery decide according to section III.-5. is none of Bartscher's obligations, but is incumbent upon the customer. If the customer does not give a counter instruction in writing in time, Bartscher is entitled - even without the customer asking for it or without such a commercial practice existing - to contract on terms usual in Germany in the customer's name and at the customer's expense for carriage of the goods at the customer's risk and for insurance of the transport to the destination indicated by the customer and - if such a destination is not indicated - to the place of business of the customer.
- Compliance with agreed delivery time periods or delivery dates is subject to the customer's procuring any required documents, releases, permits, approvals, licences or any other authorizations or consents in sufficient time, opening letters of credit and/or making down-payments as agreed and performing all other obligations incumbent upon him properly and in good time and subject to no delay caused by preshipment inspections mandated by non-German authorities. Moreover, agreed delivery time-periods begin on the date of the written acknowledgement of the order by Bartscher. After informing the customer, Bartscher is entitled to deliver earlier than at the agreed delivery time or to select the date of delivery within the agreed period for delivery.
- Without prejudice to his continuing legal rights, Bartscher is entitled to fulfil his obligations after the delivery time periods or de-

livery dates agreed upon, if the customer is informed that Bartscher will exceed the delivery time limit and of the time period for late performance. Subject to aforesaid conditions, Bartscher is entitled to make repeated attempts at late performance. The customer can object to late performance within reasonable time, if the late performance is unreasonable. An objection is only effective, if it is received by Bartscher before commencing late performance. Bartscher will reimburse necessary additional expenditure, proven and incurred by the customer as a result of exceeding the delivery time to the extent that Bartscher is liable for this under the provisions laid down in section VII.

- Risks as to price and performance even in relation to goods which are not clearly identifiable to the contract and without it being necessary for Bartscher to give notice to the customer about the goods being placed at disposal, pass to the customer with delivery pursuant to section III.-5., albeit irrespective thereof with readiness for delivery by Bartscher according to the originally agreed delivery time periods or delivery dates, if these are postponed on customer's request, or as soon as the title to the goods has passed to the customer. The loading of the goods is part of the customer's obligations. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- Bartscher is neither obliged to clear the goods for export nor to take care of customs advance declarations. However, Bartscher will apply for necessary export licences and operate customs formalities necessary for the export if the customer has requested Bartscher to do so and has furnished Bartscher with the data essential for the export in a written notice dealing with this purpose exclusively. If the goods are not cleared for export without any intentional or grossly negligent fault on the part of Bartscher, Bartscher is entitled to avoid the contract in whole or in part without compensation. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- Unless expressly agreed in written form something different, Bartscher is not obliged to obtain proves of delivery, documents, certificates, licences or other authorizations necessary for the export, transit or import, or to achieve security clearance of the goods required for the carriage or otherwise or to render assistance to the customer in obtaining them. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- Bartscher is in no case liable to perform duties associated with the making available of the goods on the market outside Germany, to bear levies, duties and charges accruing outside Germany, to comply with weight and measuring systems, packaging, labelling or marking requirements or registration or certification obligations applicable outside Germany or to comply with any other legal provisions applicable to the goods outside Germany. The customer will arrange for translations in any language other than German of instructions, safety information, performance declarations or other written materials about the goods required by law or called for otherwise at his risk and expense.
- Without prejudice to his continuing legal rights and without a previous notice to the customer being necessary, Bartscher is entitled to suspend the performance of his obligations as long as, in the opinion of Bartscher, there are grounds for concern that the customer will wholly or partly fail to fulfil his obligations in accordance with the contract. In particular, the right to suspend arises if the customer insufficiently performs his obligations to enable payment to Bartscher or a third party or pays late or if the limit set by a credit insurer has been exceeded or will be exceeded with the forthcoming delivery. Instead of suspending performance Bartscher is entitled at his own discretion to make future deliveries, even if confirmed, conditional on payment in advance or on opening of a letter of credit confirmed by a major German commercial bank. Bartscher is not required to continue with performance of his obligations, if an assurance given by the customer to avoid the suspension does not provide adequate security or could be challenged pursuant to an applicable law.
- Except as provided in section III.-8., Bartscher is only obliged to inform the customer of possible disruption in performance, once the commencement of the disruption is definitely certain for Bartscher.

IV. Obligations of the Customer

- Irrespective of continuing obligations of the customer to guarantee or to enable payment, the customer undertakes to pay the agreed price for the goods in the currency specified in the written acknowledgement of the order transferring it without deduction and free of expenses and costs to one of the financial institutions designated by Bartscher. To the extent that a price for the goods has not been agreed, the price which is at the time of delivery Bartscher's usual selling price for the goods will apply. Bartscher's employees, commercial agents or other sales intermediaries are not authorized to accept payments.
- The payment to be made by the customer is in any event due for payment at the time specified in the written acknowledgement of the order or - if a time for payment is not indicated - on receipt of the invoice. The due time for payment arises without any further pre-condition and, in particular, does not depend on whether the customer has already taken delivery of the goods or the documents or has had an opportunity to examine the goods. The periods granted for payment will cease to apply and outstanding accounts will be due for immediate payment, if insolvency proceedings relating to the assets of the customer are applied for, if the customer without providing a justifiable reason does not meet fundamental obligations due towards Bartscher or towards third parties, if the customer has provided inaccurate information regarding his creditworthiness or to the extent that the cover given by a credit insurer for the customer is reduced on grounds for which Bartscher is not responsible.
- The customer warrants to have the goods transported abroad, not to transfer the right of disposal to third parties as long as the goods are in Germany, and to fulfill all legal requirements and documentations for the handling regarding customs laws and value added tax of the delivery or any service according to the applicable provisions in Germany. To the extent that Bartscher has to pay German or foreign customs duties or German or foreign value added tax, the customer will indemnify Bartscher in all and every respect without prejudice to any continuing claim by Bartscher. The indemnity is granted by the customer waiving any further requirements or other defences, in particular waiving the defence of limitation or prescription and also includes the reimbursement of the expenses incurred by Bartscher.
- Regardless of the currency and of the jurisdiction of any arbitral tribunal or court, Bartscher is entitled at his own discretion to set off incoming payments against claims existing against the customer by virtue of his own or assigned rights at the time of payment.
- Any statutory rights of the customer to set off against claims of Bartscher, to withhold payment or taking delivery of the goods, to suspend the performance of his obligations or to raise defences or counterclaims are excluded, except where the corresponding claim of the customer against Bartscher is in the same currency, is founded in the customer's own right and is either due and undisputed or has been finally adjudicated or where despite written warning by the customer Bartscher has committed a fundamental breach of his obligations due and arising out of the same contractual relationship, and has not offered any adequate assurance.
- The customer undertakes to furnish Bartscher with the data to apply for the customs formalities according to section III.-10. in reasonable time ahead and in writing, to take delivery of the goods either by himself or by a person nominated in writing by him to Bartscher at the delivery time without taking any additional period of time and at the place of delivery resulting from section III.-5. and shall fulfil all the duties imposed by the contract, by these International Conditions of Sale, by the rules of the ICC for the use of the agreed clause of the Incoterms® 2020 and by statutory provisions. The customer is only entitled to refuse to take delivery of the goods if he avoids the contract in accordance with the rules in section VI.-1.
- The customer will not promise or perform any act with regard to the goods purchased from Bartscher, if such act is forbidden under the applicable provisions in particular of foreign trade law including the U.S. export control regulations. To the extent that the customer is unsure whether such prohibitions exist, the customer shall seek consultation with Bartscher in writing.
- The customer will monitor the goods purchased from Bartscher in the market and will inform Bartscher without delay in writing of any concern that the goods might pose a risk for third parties. Moreover, the customer will, without any demand being necessary, inform Bartscher in writing if Bartscher has to observe any particular duties of reporting or registration or providing information or prior notification or other requirements for access to market or has to comply with obligations to retain documents, under the provisions in force in the customer's country or in the country where the goods are to be used.
- Irrespective of any statutory provisions, the customer shall at his own cost take care of or in any other way ensure renewed utilization, material recycling or otherwise prescribed wastedisposal of the goods delivered by Bartscher to the customer and of the packaging material.

V. Delivery of non-conforming Goods or Goods with Defective Title

- Without prejudice to any exclusion or reduction of liability of the seller provided by law, goods do not conform with the contract if the customer proves that, taking into account the terms in section III., at the time the risk passes the packaging, quantity, quality or the description of the goods is significantly different to the specifications laid down in the written acknowledgement of the order, or in the absence of agreed specifications, the goods are not fit for the purpose which is usual in Germany. Changes in design, construction or material which reflect technical improvements do not constitute a lack of conformity with the contract. Regardless of the stipulation established in sentence 1, the goods shall be deemed to conform with the contract to the extent that the legal regulations applicable at the place of business of the customer do not prevent the usual use of the goods.
- To the extent that the written acknowledgement of the order by Bartscher does not contain an explicit statement to the contrary, Bartscher is in particular not liable for the goods being fit for a purpose which is not usual in Germany or for complying with further reaching expectations of the customer or for possessing the qualities of a sample or a model or for their compliance with the legal regulations existing outside Germany, for instance in the customer's country. Bartscher shall also not be liable for any non-conformity with the contract that did not exist at the time the risk has passed. To the extent that the customer, either himself or through third parties, initiates the removal of non-conformities without the prior consent of Bartscher in writing, Bartscher will be released from his liability.
- The customer is obliged vis-à-vis Bartscher to examine or to have examined every single delivery comprehensively for any discoverable or typical lack of conformity with the contract and moreover as required by law.
- Without prejudice to any exclusion or reduction of liability of the seller provided by law, goods have a deficiency in title if the customer proves that the goods are not free from enforceable rights or claims of private third parties at the time risk passes. Without prejudice to further legal requirements, third parties' rights or claims founded on industrial or other intellectual property constitute a deficiency in title only to the extent that the rights are registered, made public and in legal force in the European Union and prevent the usual use of the goods in the European Union. Regardless of the stipulation established in sentence 1, title to the goods shall be deemed not to be defective to the extent that the legal regulations applicable at the place of business of the customer do not prevent the usual use of the goods.
- The customer loses the right to rely on a lack of conformity of the goods if he does not give notice to Bartscher within a reasonable time after taking delivery in accordance with section IV.-6. Such notice has to be made in writing and directly to Bartscher and to be formulated in such a precise manner as to enable Bartscher to effect remedy measures without need for further inquiries from the customer and to secure claims against Bartscher's suppliers and moreover as required by law. Bartscher's employees, commercial agents or other sales intermediaries are not authorised to accept notices outside Bartscher's premises or to make any statements concerning lack of conformity with the contract or of title and its consequences.
- Following due notice according to section V.-5., the customer can rely on the remedies provided by these International Conditions of Sale. The customer has no other rights or claims whatsoever and no claims of a non-contractual nature due to delivery of non-conforming goods or goods with defective title. In the event of notice not having been properly given, the customer may only rely on remedies if Bartscher has intentionally concealed the lack of conformity with the contract or the deficiency in title. Statements by Bartscher as to the lack of conformity with the contract or as to the deficiency in title are for the purpose of explaining the factual position only, but do not entail any waiver by Bartscher of the requirement of proper notice.
- The customer is not entitled to remedies for delivery of non-conforming goods or goods with a deficiency in title, insofar as the customer is liable vis-à-vis third parties for conditions of the goods or their fitness for a use which are not subject of the agreement with Bartscher, or if the customer's claim is based on foreign law.
- To the extent that the customer in accordance with the terms of these International Conditions of Sale is entitled to remedies because of delivery of non-conforming goods or goods with defective title, he is entitled to demand in accordance with the terms of the UN Sales Convention delivery of substitute goods or repair of Bartscher or to reduce the price for the goods. The delivery of substitute goods or repair does not lead to a recommencement of the limitation period. The reduction of the price for the goods is limited to the damages suffered by the customer. Further claims for performance are not available to the customer. Irrespective of the customer's remedies, Bartscher is always entitled in accordance with the provision in section III.-8. to repair goods which do not conform with the contract or to supply substitute goods or to avert the customer's remedies by giving him a credit note of an appropriate amount.
- In case of unjustified assertion of remedies for delivery of non-conforming goods or goods with a deficiency in title, although the customer is or ought to have been aware that a non-conformity or a deficiency in title does not exist or that the cause for such non-conformity or deficiency in title claimed are not to be attributed to Bartscher, the customer is obliged to reimburse Bartscher for expenses incurred due to the unjustified assertion of claims.

VI. Avoidance of the Contract

- The customer is entitled to declare the contract avoided, if the respective applicable legal requirements are complied with, after he has threatened Bartscher in reasonable time after the facts justifying the avoidance of the contract had occurred with avoidance of the contract in writing and an additional period of time of reasonable length for performance fixed in writing has expired to no avail. If the customer claims delivery of substitute goods, repair or other performance, he is bound for a reasonable period of time to the chosen remedy, without being able to exercise the right of declaring the contract avoided. In any event, the customer must give notice of avoidance of the contract within reasonable time after the additional period of time has expired in writing and to Bartscher directly.
- Without prejudice to his continuing legal rights, Bartscher is entitled to avoid the contract in whole or in part if the customer objects to the application of these International Conditions of Sale, if the implementation or performance of the contract is prohibited by the law in whole or in part, if on grounds for which Bartscher is not responsible the written acknowledgement of the order by Bartscher is received by the customer more than fourteen (14) calendar days after its date of issue, if insolvency proceedings relating to the assets of the customer are applied for, or if for other reasons Bartscher cannot be expected to fulfill his obligations by means which - taking into consideration his own interests and that of the customer as far as ascertainable and legitimate at the time of formation of the contract - are unreasonable, in particular in relation to the agreed counter-performance.
- Without prejudice to his continuing legal rights, Bartscher is entitled to avoid the contract in whole or in part after prior warning if the customer does not place call off orders as agreed, if he does not furnish Bartscher with the data necessary to apply for customs formalities in due time, if without providing a justifiable reason he does not meet fundamental obligations due towards Bartscher or towards third parties, if he has provided inaccurate information regarding his creditworthiness or to the extent that the cover given by a credit insurer is reduced on grounds for which Bartscher is not responsible.

VII. Damages

- Without waiving the legal requirements, Bartscher is only obliged to pay damages due to the breach of obligations resulting from the contract with the customer, the contractual negotiations carried on with the customer or the business relation with the customer in accordance with the following provisions. These provisions apply equally for all of Bartscher's obligations to reimburse expenses.
 - The customer is required in the first instance to rely on other remedies and can only claim damages in the event of a continuing deficiency. The customer cannot claim damages as an alternative to other remedies.
 - Bartscher is not liable for the conduct of suppliers, subcontractors, carriers or freight-forwarders, for damages to which the customer has contributed or for the consequences of customer interference with the security and/or safety technology of the delivered goods. Bartscher is not liable if the contract cannot be performed as agreed at the time of its formation due to subsequent statutory or sovereign measures. Neither is Bartscher liable for impediments which occur, as a consequence of natural or political events, acts of state, industrial disputes, sabotage, accidents, terrorism, biological, physical or chemical processes or comparable circumstances and which cannot be controlled by Bartscher with reasonable means. Moreover, Bartscher is only liable to the extent that the customer proves that the executive bodies or members of staff of Bartscher have deliberately or negligently breached contractual obligations owed to the customer.
 - In the event of liability, Bartscher will compensate within the limits of lit. d) the losses of the customer to the extent that the customer proves that he has suffered an unavoidable loss caused by the breach of obligations owed to the customer by Bartscher and foreseeable to Bartscher, at the time of the formation of the contract in respect of the occurrence of the loss and its amount. Moreover, the customer is required to mitigate his loss as soon as a breach of contract is or ought to be known.
 - Bartscher is not liable for loss of profit or damage to reputation. Moreover, the amount of damages for late or non-existent delivery is limited to 0.5 per cent for each full week of delay, up to a maximum of 5 per cent of the net purchase price of the goods delivered late or not at all, and in case of remedies because of delivery of non-conforming goods and/or goods with a deficiency in title is limited to an amount of 200 per cent of the net purchase price of goods affected. However, this subparagraph does not apply to injury of life, body or health, to intentional concealment of the non-conformity or deficiency in title of the goods and to breaches of contractual obligations due to intentional harm or gross negligence.
 - For breach of contractual, pre-contractual or obligations resulting from the business relation owed to the customer, Bartscher

is obliged to pay damages exclusively in accordance with the provisions of these International Conditions of Sale. Any recourse to concurrent bases of claim, in particular of a non-contractual nature, is excluded. Equally excluded is any recourse against Bartscher's company organs, employees, servants, members of staff, representatives and/or those employed by Bartscher in the performance of his obligations on grounds of breach of contractual obligations owed by Bartscher.

- Insofar as the limitation period may not already have barred the claim, claims for damages brought by the customer are excluded after six (6) months beginning with the rejection of the claim for damages by Bartscher.
- Irrespective of continuing statutory or contractual claims, the customer is obliged to pay damages to Bartscher as follows:
 - In the event of delay in payment, the customer will pay a lump sum of EUR 50.00, the costs of arbitral, judicial and extra-judicial means and proceedings, usual and accruing within the country and abroad, as well as (without evidence being necessary) interest at the rate applicable in 33154 Salzkotten/Germany for unsecured short-term loans in the agreed currency, at least however interest at 9 per-cent points over the base rate of the German Federal Bank (Deutsche Bundesbank).
 - In the case of a late taking delivery of the goods by the customer by more than two (2) weeks, Bartscher is entitled to claim damages without evidence being necessary of 5 per cent of the value of the goods to be delivered. In the case of a late taking delivery of the goods by the customer by more than six (6) weeks or an entire failure to take delivery as well as in the event of non-delivery due to a breach of contract by the customer, Bartscher is entitled to claim damages without evidence being necessary of 20 per cent of the value of the goods to be delivered.
 - If the contract has been avoided by the customer without justification, Bartscher is entitled, insofar as he consents to the avoidance, to claim damages without evidence being necessary in the amount of 20 per cent of the value of the goods to be delivered.
- Within the bounds of what is legally possible as well as within what is usual in the trade, the customer is in his commercial relationships with his clients obliged to limit his liability both in principle and in amount.

VIII. Limitation Period

The customer's claims in respect of the delivery of new non-conforming goods and new goods with a defect in title become time-barred two (2) years after delivery of the goods. The customer's claims in respect of the delivery of non-conforming second-hand goods and second-hand goods with a defect in title become time-barred one (1) year after delivery of the goods, unless Bartscher has breached contractual obligations intentionally or grossly negligently. The delivery of substitute goods or the repair of delivered goods does not lead to a restart or suspension of the limitation period.

IX. Other Provisions

- Title of the goods that have been delivered remains with Bartscher until settlement of all claims existing against the customer. The allocation of risk as to price and performance in section III.-9. is not affected by the reservation of title.
- Irrespective of continuing statutory or contractual claims, the customer will indemnify Bartscher without limit against all claims of third parties which are brought against Bartscher on the grounds of product liability or similar provisions, to the extent that the liability is based on circumstances which - such as, for example, the presentation of the product - were caused by the customer or other third parties without express written consent of Bartscher. In particular, the indemnity also includes the reimbursement for expenses incurred by Bartscher and is granted by the customer waiving further conditions or other objections, in particular without requiring compliance with control and recall obligations, and waiving any defence of limitation.
- In relation to pictures, drawings, calculations and other documents and computer-software, which have been made available by Bartscher in a material or electronic form, the latter reserves all proprietary rights, copyrights, other industrial property rights as well as know-how rights.
- Subject to written objection by the customer, personal data, which Bartscher receives from the customer in the execution of activities covered by these International Conditions of Sale, are processed by Bartscher and also by service providers located in Germany or abroad.
- The transmission of electronic documents (EDI) requires special agreements.
- All communications, declarations, notices etc. are to be drawn up exclusively in German or English. Communications by means of fax or e-mail fulfil the requirement of being in writing.

X. General Basis of Contracts

- The place of delivery results from section III.-5. of these International Conditions of Sale and applies likewise to the delivery of substitute goods or the repair of delivered goods. The place of payment and performance for all remaining obligations arising from the legal relationship between Bartscher and the customer is 33154 Salzkotten/Germany. These provisions also apply if Bartscher assumes the costs of money remittance, renders performance for the customer somewhere else or payment is to be made in exchange of documents or goods or in the case of restitution of performances already rendered. The agreement of other clauses of the Incoterms or of clauses such as „delivery free.....“ or similar ones merely involve a variation of the provisions as to the transportation and the transportation costs; besides that, the provisions laid down in these International Conditions of Sale remain applicable.
- The United Nations Convention of 11 April 1980 on Contracts for the International Sale of Goods (UN Sales Convention / CISG) in the English version governs the legal relationship with the customer. The UN Sales Convention applies, above and beyond its own area of application, and regardless of reservations adopted by other states, to all contracts to which these International Conditions of Sale are to be applied according to the provisions of section I.
- The formation of contract, including agreements as to the jurisdiction of courts and arbitrators, its amendments or alterations, and the contractual rights and obligations of the parties, also including the liability for death or personal injury caused by the goods to any person and breach of pre-contractual and collateral obligations, as well as the interpretation are exclusively governed by the UN Sales Convention together with these International Conditions of Sale. Where standard terms of business are used, in case of doubt the Incoterms 2020 of the International Chamber of Commerce apply taking into account the provisions stipulated in these International Conditions of Sale. Subject to differing provisions in these International Conditions of Sale, the rest of the legal relationship between the parties is governed by the Swiss Code of Obligations.
- All contractual and extra-contractual disputes as well as disputes under insolvency law, arising out of or in connection with contracts to which these International Conditions of Sale apply, including their validity, invalidity, breach or cancellation as well as other disputes arising out of the business relationship with the customer shall be finally resolved, without recourse to the ordinary courts of law, by arbitration according to the Swiss Rules of International Arbitration of the Swiss Chambers' Arbitration Institution in force on the date when the Notice of Arbitration is received in accordance with these Rules. The tribunal shall consist of three (3) arbitrators, one (1) of them shall be nominated by the claimant, one (1) of them by the respondent and the chairman of the tribunal shall be designated by the two arbitrators so nominated, or if the amount in dispute is inferior to € 250,000, there shall be one (1) arbitrator appointed according to the Swiss Rules of International Arbitration. The place of the arbitration shall be Zurich/Switzerland, the languages used in the arbitral proceedings shall be German and/or English. The competence of the Arbitral Tribunal excludes especially every statutory competence of state courts, which is provided by reason of a personal or substantive relation. If this arbitration clause is ineffective or ceases to be effective, the non-exclusive jurisdiction of the courts which have jurisdiction for 33154 Salzkotten/Germany is agreed for all disputes instead. If the relevant place of business of the customer is within the European Economic Area (EWR) or Switzerland, irrespective of any ineffectiveness of the arbitration clause and instead of bringing an action before the arbitral tribunal, Bartscher is also entitled to bring an action before the State Court which has jurisdiction for 33154 Salzkotten/Germany or the State Court of the customer's place of business.
- If provisions of these International Conditions of Sale should be or become partly or wholly ineffective, the remaining arrangements will continue to apply. The parties are bound to replace the ineffective provision with a legally valid provision, as close as possible to the commercial meaning and purpose of the ineffective provision.
